SOLUTIONS....

Looking to rack mount your Mac Pro Tower?
We can help.

We have created a rack mount that can hold
one or two Mac Pro Towers in one 4RU chassis.
Have more than two computers to rack mount?
Through the Mac Pro network jack,
keep adding more towers...

FUNCTIONALITY....

The front panel mechanical power switches make
it easy to turn each computer on and off
independently.

Our front panel also includes a lighted USB
connector for each computer, which confirms
power on and off without sacrificing one of the
Mac Pro ports.

Our rear bracket and strap
secure each tower in place.
Includes front and rear rack brackets

AFFORDABILITY....

Lots of features at competitive pricing.
Our Mac Pro rack mount is ready to use
right out of the box.

Offered at \$599.00.

Optional sliding rack rails are available
at an additional price of \$99.95.
